GUTHRIE, Ok., Sept. 28.-Interpreter Murray of the Iowa tribe sends word to the Guthrie News that the Otoes have commenced to take up land in the Iowa reservation and abandon their own reservation near Red Rock. A council between the chiefs of these two tribes was held in this city last spring and an understanding was concluded that the Otoes and Missourias should consolidate with the Iowas. After the arrangement was arrived at between the chiefs an attorney notified the authorities at Wash-ington concerning their wishes. They ington concerning their wishes. They stated in their communication to the government that the land reserved for the Otoes and Missourias was poor, that the water was bad and not enough of it and that as the lowas had more land than they could use, it was the desire of both tribes to consolidate. Nothing up to this date has been done by the authorities in regard to this matter and now the tribes have concluded to consolidate without waiting for permission. The agent at the Red Rock agency is unable to check this movement, as the Indians are shrewd enough to do it on the pretense of visiting a friendly tribe. Guthrie is very much interested in this matter, for should it be brought about it would place at her door two more friendly tribes whose trade would be of considerable value to our merchants. considerable value to our merchants.

The Town Site Title Decision-The Board of Trade, Etc.

Special Correspondence to the Dally Eagle.
KINGFISHER, Ok., Sept. 26.—The contest case of the people of Kingfisher and the homestead claimants, involving the north half of section 15, township 16, range 7, has been decided in favor of the town site. Register Roberts and Receiver Admire are to be congratulated upon their decision, as it is one of justice and right. The idea that one man or more should undertake to buildoze the people out of a town site, especially where the land office is located, when they knew full well a town would be here, is altogether out of the question. The decision as rendered by the register and receiver is a fine document, stating in a clear and concise manner the facts as brought forth during the examination, and the authority for rendering the decision in favor of the people who are occupying the land for business purposes. The New World in this week's issue will publish the decision in full and will come out in flaming colors with a big edition on account of the victory.

climax ended the coroner's investigation of this evening into the Washington Heights railway disaster a day or two ago, by which six suburban passengers on the Rock Island road were killed and a dozen persons scalded and mangled. The jury had just returned a verdict holding Engineer Seth Twombly and Fireman Henry Lecloche responsible for the wreed and committing them to jul, when Lecloche broke down and admitted having perjured himself in swearing Twoombly was not drunk. The fireman then made an extraordinary confession, telling of his wild ride with a drunken engineer, the son of the master mechanic of the road. Lecloche intimated that compulsion from high officials of the road prompted him to lie.
